"NO PRESIDENT SINCE LINCOLN"

Socialist Speaker Calls Republican and Democratic Parties Corpses.

"Debs said that the presidential chair had been vacant since 'Old Abe' Lincoln left it," and following this W. Harry Spears, second lecturer of the Socialist Lyceum Course, severely scored the Republican and Democratic parties. He called them both corpses, which had outgrown their usefulness, and were now sadly disintegrated and on the point of decay.

"Statistics in 1900 showed that the average per capita earnings of all the persons employed in the United States, from Charles M. Schwab, who was then receiving a salary of one million dollars a year, to the little children in the cotton mills who receive twenty cents a week, were about \$2451," said Mr. Spears. "The average wage was 451. Now where does the other \$2000 go?"

"There are two classes in this country. One is the producing class, about 85 per cent of the population, and the other is the non-producing class, the remaining 15 per cent. Two thousand dollars from everyone of the 85 per cent of the people goes

to the 15 per cent every year."

The speaker then defined the theory of economic determinism, and showed how it operated all through history. He said that there are 50 million socialists all over the world.

The next lecture will be given by Frank Bohn, doctor of philosophy at the University of Michigan. His subject will be "The War of the Classes."

Will Set April Term Docket.

The docket for the April term of the Circuit Court will be set next Monday. The work will be done by J. E. Boggs, circuit clerk, and the attorneys who have charge of cases. About sixty cases will be set for trial.

Revivals Close Tonight.

The closing service of the revival meeting that has been in progress during the past two weeks at the Methodist Church will be held at 7:30 o'clock tonight. After a short service those who have already signified a desire to join the church, will be baptized and received into membership, and an opportunity will be given to others who desire to do so to identify themselves with the church either by letter or profession.

TO CONSIDER MOTOR LINE

Westmount People are Finding Out Cost of Maintenance.

Investigation is being carried on by the Westmount Improvement Association to determine what the cost of maintenance of the proposed automobile street car line will be. A committee to carry on this investigation was appointed at a meeting last Saturday night at the home of Dr. Hermann Sehlundt.

It is not the desire of those interested to make any profit out of the line but it must be self-sustaining. Similar systems are operated in other cities with much success. It is said that in Indianapolis the automobile lines have forced the street car lines into a tight place and there is a possibility that the latter may have to go out of business. It is thought that some of the automobile manufacturing companies offer guarantees as to the cost of operation of their cars which will make the proposed line here certain success.

Formerly a bus line was operated in the Westmount and the Westwood district. The line paid expenses but profits were too small. The automobile line will have an advantage over the bus in that it can make two trips in practically the same amount of time that the bus made one.

A LESSON IN FRACTIONS

In the Last Analysis the Boatman Had the Better of the Philosopher.

A philosopher stepped on board a boat to cross a stream. On the passage he inquired of the ferryman if he understood arithmetic. The man looked astonished.

"Arithmetic? No, sir; never heard of it before."

The philosopher replied: "I am very sorry, for one-quarter of your life is gone."

A few minutes afterwards he asked the ferryman:

"Do you know anything of mathematics?"

The boatman smiled and replied: "No."

"Well, then," said the philosopher, "another quarter of your life is gone."

A third question was asked the ferryman:

"Do you understand astronomy?"

"Oh, no, no; never heard of such a thing."

"Well, my friend, another quarter of your life is gone."

Just at this moment the boat ran on a rock. The ferryman jumped up, pulling off his coat, and asked the philosopher:

"Sir, can you swim?"

"No," said the philosopher.

"Then," shouted the ferryman, "your whole life is gone, for the boat is going to the bottom."

Napoleon Almost an Englishman.

It was just a change that kept Napoleon from being born an English subject. He was born of Italian parents, on Corsica, an island in the Mediterranean. A few years before Napoleon's birth the Corsicans asked the English to rule over them, but the Britons refused.

Of Course He Does.

Blink—Yes, sir, I believe that tips are illegal.

Jinks—And I'll bet that you shave yourself and eat at home.

RELIGION A SECOND THOUGHT

The Rev. C. M. Aker Says Men Place Business First.

"Religion is given a second or third rate place in the lives of most men," said the Rev. C. M. Aker at a men's meeting at the Methodist Church yesterday afternoon. They place business, position or other things first. If this were not the case, it would be hard to keep men away from the church.

"Men do not think much about religion. They merely give a mild approval and are not concerned further. We might say that their religious thought goes about inch deep."

Mr. Aker based his talk upon the Bible character spoken of as being "not far from the kingdom." This man was good morally but had not taken any definite step in religion. Mr. Aker said there were many such men today hanging on the outer edge of the church.
